The Calibre One Index provides a comprehensive review of early stage tech investment. It lists and compares all the investments made by tech investors in the key territories of Europe and North America on a quarterly basis.

Published in London and San Francisco every January, April, July and October, the Calibre One Index is compiled by Calibre One – the world's leading technology specialist executive search consultancy.

The Index is downloadable in PDF format from www.calibreone.com.

Total tech investment Q1 2006 – Q4 2006

Comments

From Europe

"Taking into account the fact that Christmas festivities in Europe essentially make Q4 a two-month quarter, the figures for Q4 2006 are remarkable. History shows that reported investment levels dip dramatically in the last quarter of a year, normally by 30-50%. That just didn't happen this year, which is a clear sign of the very significant improvement in the market.

The UK and France performed particularly well, but performance was good across all the European markets. It was interesting to note that investment figures were down in the US, but only slightly - and again, not as much as we might have predicted. Despite this, the total investment in tech in Europe was not even 30% of the figure in the US. However, in Q3 it was 20.6% - quite a startling shift. It will be interesting to see if this is just a blip, or the start of a trend."

James Brocket
*Managing Director,
Calibre One Europe*

From the USA

"Q4 saw a significant fall in investment levels in the US, but like Europe, not as great as predicted. The dip is magnified by the fact that Q3 was such a strong quarter for the region.

Recruitment activity levels remained unusually high throughout the final quarter, with a significant amount of work derived from European clients establishing a presence in the US. The huge momentum of the US market is continuing to grow, and in San Francisco we are looking forward to our best ever year in 2007.

A Happy and Prosperous New Year to all."

Tom Barnes
*President,
Calibre One Inc*

Breakdown of Investments Quarter Four 2006

North America

Month	Company	Total (\$US)	Investors
Oct-02	Advanced Diamond Technologies	Undisclosed	Illinois Venture, Individuals, LaSalle Investments

Setting the standard

With offices in London and San Francisco, Calibre One is the world's leading executive search organisation dedicated to working with high-growth technology businesses and their investors to find outstanding talent to help them realise their true value.

Our 'no stone left unturned' approach to each assignment produces results that consistently surpass our competitors. This has enabled us to build partnerships with the world's leading private equity investors and their portfolio companies across the world.

Executive search

Never before has the effective and efficient recruitment of senior managers been more of a mission-critical undertaking. A successful technology company is built on three core pillars of value – the technology (IP), the balance sheet and the quality of the team.

We help our partners to achieve their business objectives through managing the effective recruitment and retention of great people on their behalf.

We measure our success in client terms, not our own. Completing an assignment is only the start. The real measure of success of any executive placement is the improved performance of the business. With this in mind, Calibre One provides the most comprehensive guarantee in the market. Should we recruit a candidate who does not work out in their first six months, for whatever reason, then we will undertake to manage the assignment again for no additional fee.

In this way our success is inextricably linked to the success of our clients.

Interim Management

Calibre One Interim is a leading Interim Management provider. It manages a hand-picked network of highly skilled and experienced executives all of whom have been subjected to a rigorous assessment and referencing process before being accepted onto the register.

Whether it's a spin-out, strategic review, special project, aggressive expansion or a turnaround, Calibre One Interim can be trusted to deliver outstanding Interim Management solutions in record time.
